STRIP S

BUTTON

Laying and maintenance tips

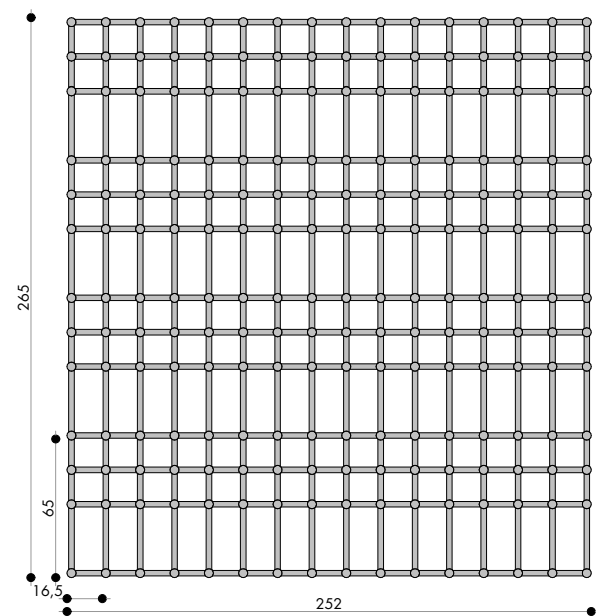

use	Wall – indoor, outdoor.
installation	Install on perfectly flat and dry walls. For correct installation, follow the installation instructions.
recommended adhesive	Heat glue and silicone or other structural adhesive
cleaning at the end of installation	SILICONE: Solvent for silicone e.g. FILA ZERO SIL. Put it straight onto the stain, wait for 20 minutes and remove the mark using scotch Brite. PAINT: Can usually be removed using water, but if resin-based paints or particular enamels have been used, it is best to ask the manufacturer which solvent is most suitable. RUST: stain remover es. FILA NO RUST. Apply the product onto the stain, leave for 15 minutes, remove the residue and rinse thoroughly.
general cleaning (installed tiles)	We recommend the use of cleaners specifically designed for porcelain stoneware.
calibers (real size)	288x26,5 mm - 128,5x26,5mm Ø 42mm

laying suggestions

Strip L, Strip S and Button: three elements, endless possibilities.

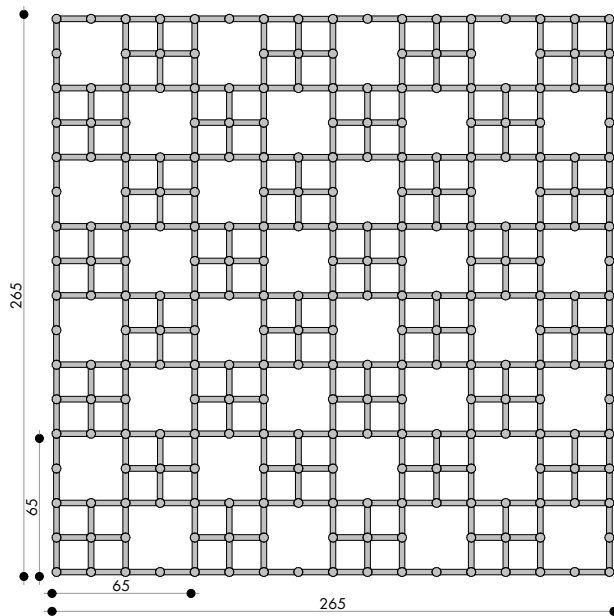

To inspire and simplify the design process, Mutina has developed, in collaboration with the designer, four exclusive layout modules. Each module is designed to enhance textures and contrasts, and comes with an indicative cost per square meter.

For tailored advice and a detailed calculation of the required quantities, our sales team is at your disposal.
